

FOLDABLE CABLE & ROPE DISPENSER XL TED

TECHNICAL SPECIFICATIONS

- Tubular steel structure
- Silent blocks to ensure a good "grip" while de-coiling
- Adjustable strap handle
- Pin locking drum
- The wheels are to be mounted on the frame using 2 x 13 mm pipe wrenches

TECHNICAL SPECIFICATIONS

- Material: steel tube
- Compatible drums:
- Max diameter: 500mm
- Max width: 570mm
- Max weight: 45kg

Perfect for de-coiling & re-coiling small cable drums (fiber optic, RJ45, energy) and rope to 500mm diameter and 45 kg.

Easy to carry and easy to use, this TED mobile dispenser is equipped with wheels and a strap handle.

No need to disassemble the drum or carry it between 2 sites. Moving the drum is done with one hand and effortlessly by rolling it.

The strap handle is adjustable and adjusts to the engineers height.

Stability during de-coiling is ensured by two silent blocks on the front frame. Simply place dispenser in the up-right position on the ground and it will be operational.

This TED mobile dispenser is particularly convenient for deployments in medium to sparsely populated areas (peri-urban and rural areas).

It saves time during deployments by ensuring smooth cable de-coiling, and when travelling, without taking up space in the vehicle. Whether folded or installed on the drum, the TED dispenser takes up to a minimum of space.

PN	DESCRIPTION	UNIT
1001382	FOLDABLE CABLE & ROPE DISPENSER XL TED	Unité

Weight : 5.4 kg

Dimensions : L 660mm x W 34,3mm x H 690mm
